## Professional Experience

### Companies

2009 - 2014: Green Media Agency

- Web Development:
  - PHP (2008 - 2009)
  - Perl (2009 - 2010)
  - Ruby on Rails (2009 - 2014)
- Mobile Development:
  - iOS (Objective-C)
- Project Manager
- Example of projects: the company is currently off. One of the main projects was a system for sending bulk SMS over the SMPP protocol (Short Message Peer-to-Peer), it required a development with Perl and Bash, and a focus on multi-threading; also I did work on an e-commerce site that was made from scratch on 2013 - 2014.

2014 - 2016: Applaudo Studios - Phunware

- Mobile development:
  - iOS (Objective-C)
- Web Development
  - Ruby on Rails
- Example of projects: <https://theenergyproject.com/>

2016 - Current: Cru USA

- Mobile Development
  - iOS (Objective-C and Swift)
- Backend Development
  - Ruby on Rails
- Frontend Development
  - Angular
  - React
- Example of projects: <http://vokeapp.com/>

## Other projects

- Seminario Bautista Vida Nueva - Iglesia Bautista Vida Nueva
  - <http://classroom.sbv.edu.sv/>
  - Development with PHP using the Chamilo framework
- Connect My Church (currently under development)
  - CTO of the startup, project management, and lead developer on backend

## Skills

### Languages and frameworks

- Ruby on Rails (4 and 5)
- Objective-C
- Swift
- Python
- React
- Angular

### IT and other

- DB: MySQL, Postgres, MongoDB, Redis
- Search: Elasticsearch, Solr
- APIs: Restful design, Unit Testing, OAuth2
- Docker
- Scrum (Jira)
- Other: Apache Nutch, Pentaho

### Personal

- Proactivity and passion for Machine Learning
- Project Management and focused on results
